

Wall Banner Templates

Take your branding efforts to the next level with high quality, full color wall banners that are perfect for displays at tournaments and special events! Banners are perfect for helping your association stand out, enhance event prestige, and create a special environment.

We have designed three print-ready background templates that can be used by your print or banner vendor to create your own custom banner. Each template is available in blue, red, and gray color options and either 3' x 6' or 4' x 8' sizes; these two sizes are most typical according to BPAA. The first set of images below picture the high-resolution PDFs that can be downloaded and used as the background for customizing your design. The images on page 2 are simply examples to spark ideas. Remember to make your banner timeless, don't add dates or locations. Also don't add much text; imagery and main message only!
