Bowl for the Cure Month

February is Bowl for the Cure month! Join USBC in celebrating Bowl for the Cure in its fight against breast cancer by getting involved in your community. Host a Bowl for the Cure tournament, hold a silent auction, or have a "Pink" league night. Click [here](#) for more tips and ideas on ways to assist.

This month, Bowl for the Cure is featuring a photo contest to encourage local associations and leagues to submit past or current Bowl for the Cure event photos. Those who participate in the photo contest will be eligible to win a Bowl for the Cure Viz-A-Ball! In order to participate, event photos should be submitted online, emailed to bftc@bowl.com, or mailed to USBC.

To submit your photos online, click [here](#). For more contest information, click [here](#). If you have any questions, please email bftc@bowl.com.

Meet for the Cure and Survivor Luncheon

As is customary at the USBC Convention, we again will host a Meet for the Cure event at the annual meeting. A touching ceremony, Meet for the Cure aims to celebrate all those who have been affected by breast cancer.

If you are a breast cancer survivor attending Convention, we would like to invite you to a special luncheon on Wednesday, April 29, from 11:30 a.m. to 1 p.m. To register, please fill out the Survivor Luncheon form by clicking [here](#).

We look forward to celebrating you at the Convention again this year!

Women's Championships' Bowl for the Cure Week

Join us for the Women's Championships' Bowl for the Cure week June 14 - 21. USBC will host a week to celebrate survivors and increase breast cancer awareness. The week will include various activities, such as the March of Hope (survivor walkout), a silent auction, and various giveaways! A portion of registration fees, along with donations collected during the week, will be donated to Bowl for the Cure.

To gain more information and register for the tournament, click [here](#).

Pink Facts

One in eight women in the U.S will be diagnosed with breast cancer in her lifetime. Though breast cancer can affect those across all walks of life, certain factors impact

breast cancer risk. Some of these factors include age, gender, alcohol consumption, physical activity, eating habits, and genetics. Click [here](#) for more information on breast cancer risk from the Susan G. Komen website.

Do you have stories or memories you want to share with the community? We want to hear from you, and maybe you will even get a feature in the Bowl for the Cure newsletter! Please email bftc@bowl.com or you can mail a letter to:

United States Bowling Congress
Bowl for the Cure
621 Six Flags Dr.
Arlington, TX 76011
