## USBC CANCELS 2020 CONVENTION

The USBC Board of Directors approved a special resolution to cancel the 2020 USBC Convention and postpone the Annual Meeting until 2021 because of COVID-19 public health restrictions.

The survivor luncheon and Meet the Cure ceremony will recommence during the 2021 USBC Convention. Current registrants for the survivor luncheon will be contacted next year to confirm attendance.

## Mother's Day Note

Now more than ever, we are reminded of what truly matters, and with Mother's Day fast approaching, now is the time to tell the women in our lives how much we care.

To honor women and moms everywhere, our partner, Susan G. Komen, has created free Mother's Day e-cards you can personalized and send to the women in your life who you hold dear.

We encourage you to take the time to spread the love this Mother's Day. In this moment, we are stronger together.

Click [here](#) to begin your love note.

## Pink Facts

According to Susan G. Komen, one in eight U.S. women will be diagnosed with breast cancer in her lifetime. In order to be proactive, it is important to self-check and be aware of any abnormalities/changes with your body. Breast cancer warning signs to be aware of are:

- A lump, hard knot, or thickening inside the breast or underarm area
- Swelling, warmth, redness, or darkening
- Irritation, dimpling, or puckering of the skin
- New pain in one spot that doesn't disappear

Remember, in most situations these changes are normal, but it is important to see a doctor if you recognize these warning signs. For more information on detection and normal versus abnormal changes from Susan G. Komen, click [here](#).
