

January 2022

TITLE: SPECIAL EDITION – COVID-19

This is a special edition of the Rules Extra to discuss concerns about COVID-19.

League Play

USBC considers the coronavirus as an emergency situation and, therefore, the unanimous consent of all team captains (Rule 102c) requirement for leagues to change the schedule does not apply. The decision to change the schedule may be made by a majority of the votes cast by the league board of directors (officers and team captains).

The league, before a decision is made regarding the league schedule, must come to an agreement with bowling center management concerning the league contract. Verbal or written, the league has a contract. Whether the center is closed by choice or because of governmental restrictions, league officers should contact the center before any league decision regarding a change in schedule is made.

The league needs to know if the center is going to charge lineage fees for the balance of the contract. Once the league has an agreement with the center, the league board of directors (officers and team captains) has a couple of options to consider. The decisions may be made via email, text, or phone or conference call during this difficult time.

1. Postpone the schedule and complete the league at a later date.

Some bowlers may choose to withdraw; USBC will not hold bowlers accountable for the fees required in Rule 121a. Any prepaid fees must be returned fully to a withdrawing bowler and should be done immediately. The bowler(s) also is entitled to a pro-rated share of the prize fund based on the number of weeks paid.

2. Cancel the league schedule.

All prepaid fees must be returned to the rightful bowlers. The standings are final as of the date the league decides to cancel. If the center charges lineage for the balance of the contract, it is deducted from the league prize fund. The league board of directors must also decide how the prize list will be adjusted. Click [How to adjust a prize list](#) for information on how to do so.

For split season leagues, because of the inability to hold a playoff, the league board may declare co-champions and divide any additional playoff money equally among teams in the playoff.
