

How to make the PVC Targeting device

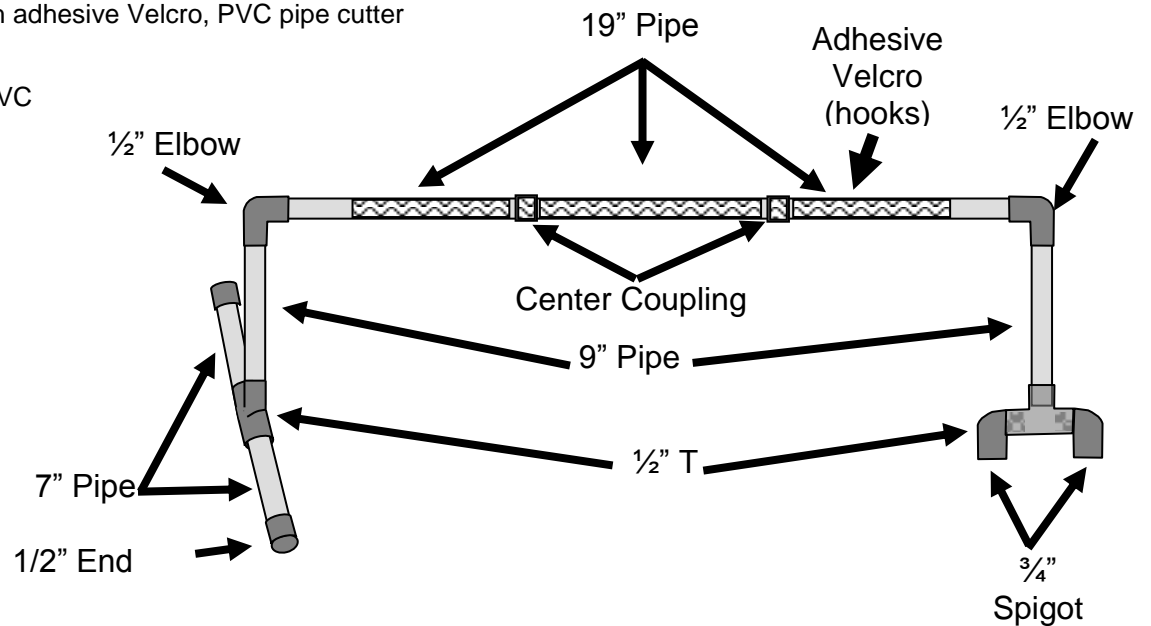

What you'll need (makes 1)

- 1 – Length of 1/2" PVC pipe (available home improvement stores 10-foot lengths)
-  2 – 1/2" 90° Elbow couplings (non-threaded)
-  2 – 1/2" Tee couplings (non-threaded)
-  2 – 1/2" 90° Spigot couplings (non-threaded)
-  2 – 1/2" End caps (non-threaded)
-  2 – 1/2" Center couplings (non-threaded)
- 4 – Felt strips 14" long X 2" wide

Cardboard paper strips cut to 10 1/2" long X 1 1/2" wide

Industrial strength adhesive Velcro, PVC pipe cutter

Cut the 10-foot PVC pipe as follows
 3 – 19" lengths
 2 – 9" lengths
 2 – 7" lengths

Flags

Pin two pieces of felt together, sew 1/4" seam around edge leaving one end open. Insert cardboard strip and sew end closed; also stitch above the piece of cardboard. Place loop Velcro on the top. Repeat for second flag, now flags are ready to hang on the bar.

Leave end open, insert cardboard

Stitch the end closed and above the cardboard piece on top

Apply sticky back Velcro (loop side) 2" wide X 2.75" long
